

NATIONAL/REGIONAL ACCESS POINTS

AGENDA

- Importance and European best practice (Isabelle Vandoorne, European Commission)
- Belgian/regional approach (Philippe Decap, FOD Mobiliteit/SPF Mobilité & Nele Dedene, MOW)
- Involvement of the private sector: open discussion (Peter Van der Perre, ITS.be)

OPEN DISCUSSION - THEMES

1. Expectations - what is the NAP? What functionality does it have?
2. Importance and impact of a NAP - What is the real goal, what services should it enable?
3. What data priority requirements exist
4. What could the cost model be? Is a freemium model an option?
5. Can a NAP refer to public & private data? How to get there? Is a charter enough?
6. Principles moving forward
