Mobility partner integrations

Inter-modal routeplanner

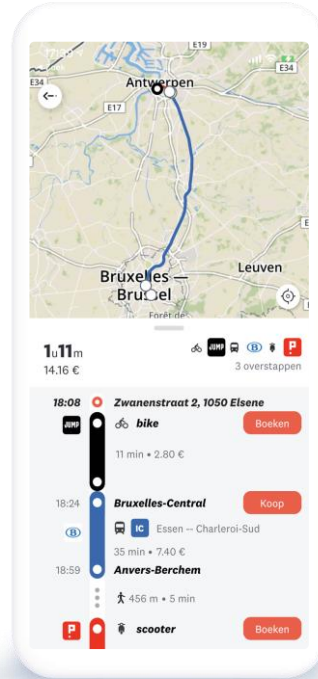

Mobility budget

Integrated **Partners** in Skipr

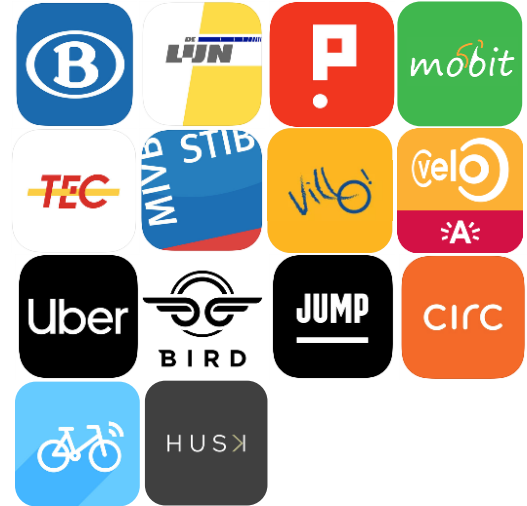

Partners integrated up to
booking & payment

Inter-modal journeys that can compete against the car

Our routeplanner partners:

A corporate mobility SaaS solution for the mobility budget

Skirr Web Dashboard

Allows users and administrators to manage your account and see budget status

Skirr App

Advises intermodal travel routes, as well as direct access to many mobility providers: Trains, Bus, Metro, Shared cars, Shared bikes, Shared Scooters, etc...

Skirr Payment Card

Allows users to spend the centralized budget on any mobility provider.

When looking at the future we hope to count on

Build on the Mobility budget

Focus on alleviating the barriers for adoption & continue making it more attractive

Enable open (ticketing) APIs for better experience

Ensure any mobility provider (public or private) connects with MaaS solutions to get connected to MaaS solutions
